SHRUTI KUMARI PANDEY

Mumbai | shrutipaandey@gmail.com | 9372276810 | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Aspiring Business Analyst and Data Analyst with a B.Sc. in IT (CGPA: 8.65) and hands-on experience in Python, SQL, Power BI, and Advanced Excel. Skilled in BRD writing, stakeholder analysis, gap analysis, requirements gathering, and translating 260,000+ record datasets into actionable business insights. Experienced in NLP-based sentiment analysis and AI-powered analytics.

CORE SKILLS

Business Analysis: Requirements Gathering, BRD Writing, Stakeholder Analysis, Gap Analysis, Process Mapping, User Stories
Data and AI: Python (pandas, matplotlib, seaborn, TextBlob), SQL, NLP Sentiment Analysis, NewsAPI
Tools: Power BI (DAX, Power Query), Microsoft Excel (Advanced), Jupyter Notebook, GitHub

EXPERIENCE

Business Development Associate - Choira Musictech Pvt Ltd (Jun 2024 - Apr 2025)

- Generated 20-30 new leads weekly through client outreach and lead generation, scheduling meetings and managing structured follow-up.
- Achieved a ~90% conversion rate on scheduled meetings; maintained outreach and client data to inform prioritization and data-driven follow-up.

Data Visualization Analyst (Virtual Internship) - Tata Group via Forage (2024)

- Completed TCS business simulation - built 4 C-suite ready dashboards translating complex datasets into executive decision-support narratives.
- Strengthened data storytelling and stakeholder reporting skills, structuring reports for rapid executive consumption.

Research Intern - Vipla Foundation (Save The Children India) (Apr - Jun 2023)

- Built case stories of beneficiaries for Anti-Human Trafficking Initiatives, translating field data into clear, decision-ready narratives.
- Conducted research for the Partnerships and Communication team and performed data translation for Monitoring and Evaluation reporting.

PROJECT EXPERIENCE

Maggi Noodles - Indian Market Dominance and Brand Recovery Analysis (In Progress, 2026)

Python | TextBlob/NLP | NewsAPI | Google Trends | Market Research

- Investigating Maggi's near-monopoly position in India's instant noodles market and its rapid brand recovery following the 2015 nationwide ban.
- Analyzing pre/during/post-ban news sentiment (NLP), market share trends, and competitor response to identify the key drivers behind sustained brand dominance.

CricketPulse AI - Cricket Analytics and News Sentiment Analysis (2026)

Python | Power BI | NLP | NewsAPI | Jupyter Notebook | BRD

- Built end-to-end BA and AI analytics system analyzing 1,095 IPL matches and 260,920 deliveries - proposed to BCCI as a data-driven franchise management platform.
- Applied NLP sentiment analysis on 99 live IPL 2026 headlines - confirmed IPL as most brand-safe sports property (89.9% positive coverage) with actionable sponsor recommendations.
- Produced full BA documentation - BRD, stakeholder map, As-Is/To-Be analysis, gap analysis, risk register, and 6 prioritized business recommendations.

Nykaa E-Commerce - Customer Behavior and Sales Analysis (2025)

Excel | Power Query | Power BI | BRD

- Identified 85%+ customers in Low Value segment - delivered BRD with stakeholder analysis and 5 prioritized recommendations including AI-driven upsell and loyalty tier strategy.
- Built interactive Power BI dashboard tracking AOV, CLV, and customer segments for data-driven marketing decisions.

Sales Performance and Profitability Analysis (2025)

Power BI | DAX | Excel

- Diagnosed Furniture as loss-making category despite high sales - built DAX KPI models tracking Profit Margin % and MoM Growth across regions and categories.
- Identified high-value customer concentration risk - proposed VIP retention program to protect top revenue accounts.

CERTIFICATIONS

Power BI for Beginners - Simplilearn | Excel Automation using ChatGPT - Simplilearn | Google Spreadsheet Fundamentals - Simplilearn

EDUCATION

B.Sc. in Information Technology, Graduated 2024

CGPA: 8.65 / 10.00
